## SUMMARY

---

Full-stack software engineer with 3+ years of experience building patient-facing features at scale for Epic's MyChart platform, serving 190M+ users globally. Proficient across the stack: React/Redux on the frontend, .NET/C# on the backend, and Swift/Kotlin for mobile. Seeking an SDE2 role in New York City where I can contribute to high-impact product teams.

## EXPERIENCE

---

### Software Engineer

March 2023 – June 2026

*Epic Systems*

*Madison, WI*

- Architected and delivered full-stack features for MyChart Bedside, a patient-facing platform serving 190M+ users globally, using React, Redux, and .NET/C#.
- Led development of a patient-proxy communication portal replacing fragmented workflows with a unified channel, facilitating 15,000+ e-card exchanges throughout hospital stays.
- Built and maintained iOS (Swift) and Android (Kotlin) mobile applications, expanding MyChart Bedside's cross-platform accessibility for patients and clinical staff.
- Mentored junior engineers through code reviews and technical design discussions, establishing team testing standards and driving a culture of quality.
- Conducted on-site hospital visits to guide software implementation, collaborate with clinical staff, and translate real-world user feedback into product priorities.
- Enforced 100% unit test coverage on all new feature development to ensure code reliability and prevent regressions at scale.

### IT Support Technician

January 2020 – May 2022

*University of Florida*

*Gainesville, FL*

- Provided technical support in-person and remotely, resolving hardware and software issues with minimal disruption to academic operations.
- Managed a ticketing system to track, prioritize, and resolve support requests efficiently.

## EDUCATION

---

### University of Florida

August 2018 – May 2022

B.S. Computer Science, Minor in Business Administration · GPA: 3.78

**Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Computer Networks, Database Systems, Software Engineering, Object-Oriented Programming

## TECHNICAL SKILLS

---

**Languages:** TypeScript, JavaScript, C#, Swift, Kotlin, Python, HTML/CSS, C++, Java

**Frameworks & Libraries:** React, Redux, .NET, React Native, Node.js, Express.js

**Databases:** SQL, MongoDB

**Tools:** Git, Bash, Expo, Xcode, Android Studio
